Arco Professional Safety Services

Arco Professional Safety Services provide consultancy, training, services and equipment to manage the most complex and high-risk, high-hazard scenarios. Specialising in working at height, in confined spaces and respiratory management, expert knowledge and experience mean the team can deliver solutions for situations with the highest risk of serious injury or irreversible damage to health.

Consultancy

Our consultants work in a strategic manner bringing a wealth of real-world health and safety expertise plus an understanding of specific hazards that enables them to develop solutions that really add value. They can help with risk management, risk mitigation and risk transfer solutions, helping clients to control, manage or even transfer the full spectrum of high-risk, high-harm challenges.

Training

Training can be off the shelf or tailor-made and delivered on or off-site. Purpose-built training facilities provide effective learning environments which can accommodate a range of different learning styles. Plus, our highly skilled specialists are qualified to support senior executives and middle managers through to operatives.

Specialist training is provided in:

- Working at height
- Confined spaces
- Respiratory
- Health and safety

Services

Respiratory Protection Services

Our specialist Respiratory Team can offer expert advice on all aspects of respiratory protection and how to implement an effective RPE programme, from face-fit testing, to respiratory training, and RPE servicing and maintenance.

Fall Protection Services

Our highly experienced team can help you develop a comprehensive risk prevention plan for working at heights, façade access and rescue. From consultation right through to installation, our end-to-end fall protection service gives you the highest quality at every touchpoint.

Rescue Services

We offer supervision and rescue services, as well as access to specialist teams that offer nationwide on-demand cover. Our joined-up approach means we can deliver a complete solution for all rescue at height and confined space scenarios, leaving nothing to chance.

Equipment

Our impartial advice can help you find the most suitable combination of technical products for your specific risks. We offer:

- **Equipment sales** - A comprehensive range of equipment for you to purchase.
- **Equipment hire** - A full selection of the most current technologies from leading specialist suppliers for you to hire on standard or long-term contracts.
- **Equipment maintenance** - Scheduled maintenance and calibrations of your equipment by our trained engineers.

Equipment Hire

When working on confined space projects be confident your team has the right equipment, in full working order and with current test documentation.

At our Arco Hire Centres our technical operators can offer expert advice, helping you to choose the best kit for your operatives and environments.

We can give you peace of mind by offering the following:

A Comprehensive Range

We offer a full selection of kit including the most current technologies from leading specialist suppliers, so you can hire the best kit specific to the requirements of your confined space project.

Flexible Contracts

Equipment can be hired on a standard contract for a minimum of one-week plus any additional time or alternatively on a long-term contract of up to five years. Choose a contract that offers your team access to maintained and serviced kit, when they need it, and which is the most cost effective for you.

➤ Standard Hire Contracts

Contracts are based on a minimum hire period of one week and can be extended to suit your requirements. You can have the very best kit for your team, when they need it, without the cost of purchasing and maintaining kit which is not used frequently.

➤ Contract Hire

Offered for longer terms of up to five-years. Contract hire also includes servicing and maintenance of equipment. Kit is taken away and replaced immediately with fit for use equivalents allowing your team continual access to reliable equipment without the worry of costs and time of servicing.

Collection

We offer the ability for customers to collect hired equipment from our network of Arco stores across the UK, making it more convenient to hire from us.

Delivery Charges

Delivery of equipment (excluding Davit Systems) to UK mainland is charged at £22.50 each way.

Equipment Sales

We offer a full selection of kit for purchase, please contact your local hire centre for more information and prices.

Equipment Maintenance

Recommended Inspection Schedules

Safety equipment used for confined space entries should be inspected and have a function test carried out by a competent person immediately prior to each use.

In addition, the following inspections are required/recommended under the relevant standards and legislation.

Lifting Equipment (tripods, winches, recovery blocks)

Manufacturers state that lifting equipment should be serviced* annually and under LOLER (Lifting Operations and Lifting Equipment Regulations 1998). Lifting equipment used for man riding should also be inspected on a six monthly basis by a competent person.

*This is typically carried out by the manufacturers service agent themselves and is not to be confused with an insurance inspection.

Fall Arrest Equipment (fall arrest blocks, harnesses, lanyards)

This type of equipment is typically inspected six monthly - inspection should not be confused with testing.

Breathing Apparatus (B.A.)

All breathing apparatus including full B.A., escape B.A. and respiratory equipment should be inspected on a monthly basis and serviced annually. In addition, compressed air cylinders should be tested every five years and the breathing apparatus sets themselves typically require additional major services/overhauls on a six to 10 yearly basis, depending upon manufacturer.

Airline Breathing Equipment

Air supply to breathing apparatus should be air-quality tested at least every three months and more frequently when the air supply cannot be assured; in addition, mobile air supply (compressors) should be tested whenever re-sited.

Gas Detection (portable and fixed)

Gas detectors typically require six monthly calibration.

Recommended Maintenance and Calibrations

Scheduled Maintenance and Calibrations

This should be undertaken to ensure your kit is in full working order with the correct, current test documentation. Our engineers follow a regulated equipment issue and inspection process in order to maintain all equipment to safe and legal standards. Only authorised persons are permitted to inspect our service equipment. Trained and certified by the major manufacturers to the highest standards required, our engineers maintain your equipment so that you can depend on it when you need it the most.

Contract Hire Equipment

Pricing includes scheduled maintenance and calibrations.

Your Own Equipment

While your own kit is being serviced, we offer a reduced rate on hire equipment so that your team is never left without the right kit.

Full Confined Space Entry Kit

Confined Space Entry Kit comprises:

- Tripod
- Fall Arrest Recovery Block
- Multi Gas Detector
- Escape Breathing Apparatus
- Rescue Safety Harness

Hire Price: £175.00
Per Week + VAT

Additional equipment (if required)
can be added to the kit at
minimal extra cost.

Equipment hire available from the following locations:

- Linlithgow
- Warrington
- Doncaster
- Bracknell

Contact us to discuss your individual requirement on
0330 390 0822 or email enquires@arcoservices.co.uk

Tripods and Winches

Tripod c/w 15m Fall Arrest Winch

CST1 KIT

- Full rescue kit
- Comprises of: T3 Tripod, AB15RT 15m Fall Arrest Recovery and a T05T Bracket
- Conformity: EN 795 Type B, EN 360 and EN 1496

Hire Price: £97.00 Per Week + VAT

T03 Tripod

- Legs can be adjusted individually for increased stability
- 6 anchor points tested to EN 795
- 3 overhead pulleys hold up to 11mm rope

Hire Price: £45.50 Per Week + VAT

RT3 Tripod

- 6 anchor points tested to EN 795
- 3 overhead pulleys hold up to 11mm rope
- Legs can be individually adjusted for increased stability

Hire Price: £52.00 Per Week + VAT

TORQ 15M Fall Arrest Recovery Winch Device

AB15RT

- Protection from falls from height
- Anchored above the user
- Integral winch mechanism allows the top man to raise or lower the user
- Swivel anchor eye on top
- Can be mounted onto Abtech tripods and davit arms for access and egress from a confined space

Hire Price: £52.00 Per Week + VAT

30m Man Riding Winch

60005

- Designed for use in a wide variety of confined spaces, work positions, rescue and fall protection applications
- Suitable for material handling applications within the prescribed working load limits
- Conformity: EN 795 and EN 1496

Hire Price: £65.00 Per Week + VAT

G.Saver II

- Recovery winch with anti-run brake
- Shock absorbing brake mechanism
- Approx. 3m per minute retrieval
- Stopping distance 0.6m to 1m
- Auto-lock karabiner

14 Metre GSE414G

Hire Price: £52.00 Per Week + VAT.

20 Metre GSE420G

Hire Price: £63.00 Per Week + VAT.

34 Metre GSE434G

Hire Price: £76.00 Per Week + VAT.

Harnesses and Lanyards

2.4m Webbing Retractor Fall Arrest Device

- AB2.4T
- Anchored above the user to provide a safe area of work
 - Retracting line allows freedom of movement within the safe area
 - Mechanism locks arresting a fall within 35cm (14 inches)
 - Integral energy absorber minimises the force exerted to below 6kN
 - Swivel attached above prevents the webbing from twisting
 - Conformity: Meets both ANSI and CE requirements. EN 360:2002 and ANSI/ASSE Z359.14-2012

Hire Price: £30.00 Per week + VAT

Rescue Harness

- ABRES
- Size: Small, Standard and Large
- Rescue Harness with a dorsal (rear 'D') attachment point, thorax 'D' attachment point and overhead attachment point
 - Suitable for general work application where there is a risk falling and working in confined spaces
 - Conformity: EN 361 and EN 1497

Hire Price: £13.00 Per Week + VAT

Ridgegear RGL12 Adjustable Restraint Lanyard

- Acts as an adjustable leash for an operative working at height
- Must not be used to extend another fall arrest product
- Length of 1.8m
- Provided with 2 oval screwgate karabiners

Hire Price: £13.00 Per Week + VAT

Ridgegear RGL1 Webbing Lanyard with Shock Pack

- For use when working from a static position
- Requires connection to a fixed anchor point
- Length of 1.8m
- Standard shock absorber pack
- Provided with 2 oval screwgate karabiners

Hire Price: £13.00 Per Week + VAT

Stretchers

Rescue Stretcher c/w Lifting Bridle and Carry Bag

- SLIX100 KIT
- Robust, compact and lightweight stretcher
 - Flexible material and a smooth finish allow easy sliding and rolling both width ways and lengthways for easy transportation
 - Strong handles
 - Conformity: CE 93/42/EEC CLASS 1

Hire Price: £65.00 Per Week + VAT

Air Mover

SA CYCLONE EX Air Mover SAF35

- 100584
- High-power portable EX ventilation fan for fume/vapour extraction in hazardous environments
 - Interchangeable duct adaptors to be configured for 20cm, 30cm and 40cm applications
 - Compact design and versatile construction provides increased mobility and performance
 - Maximum airflow of 5179 m3/hr
 - Area of Classification Zone 1 and Zone 2 (Gas)
 - Voltage Options 110VAC, 230VAC

Hire Price: £140.00 Per Week + VAT

Two Way Radios

DT953 Two Way Radio

- DT953
- ATEX-certified portable delivers exceptionally loud and clear audio
 - Lithium-Ion battery technology
 - Environmental protection to IP68 (2 meters for 4 hours)
 - 99 Channels, 8 Zones
 - Compliant: MILSTD construction 810C/D/E/F/G

Hire Price: £32.50 Per Week + VAT

Entel DX482 - DMR Digital Portable Radio

- 81756
- Compact and ultra-durable portable delivers 3 watts of digital audio
 - Lithium-Ion battery technology
 - Environmental protection to IP68 (2 metres for 4 hours)
 - 16 Channels, 1 zone
 - Compliant: MILSTD construction 810C/D/E/F/G

Hire price: £10.00 Per Week + VAT

Davit Systems

Counterbalance Davit System c/w Weights and Winches

- 30073 KIT
- Independently adjustable legs for security on uneven ground
 - Includes upper and lower davit, 30m riding winch, 360kg of weights and 15m Torq Fall Arrest Recovery Winch
 - Conformity: EN 795 CLASS B

Hire Price: £388.00 Per Week + VAT

Adjustable Trench Box Davit System c/w Winches

- 30029 KIT
- Includes man-riding winch, fall arrest recovery winch and brackets.
 - For mounting onto shoring and trench boxes
 - Conformity: EN 795 CLASS B, EN 360 and EN 1496

Hire Price: £315.00 Per Week + VAT

5" Trench Box Davit System c/w Winches

- 30161 KIT
- Includes man-riding winch, fall arrest recovery winch and brackets
 - For mounting onto shoring and trench boxes
 - Conformity: EN 795 CLASS B, EN 360 and EN 1496

Hire Price: £315.00 Per Week + VAT

4 Piece Davit System c/w Winches

- 30070 KIT
- For access into confined spaces
 - Includes upper and lower mast sections, portable base, 30m man-riding winch and winch mounting bracket
 - Interchangeable upper and lower mast sections
 - Conformity: EN 795 CLASS B and EN 1496

Hire Price: £388.00 Per Week + VAT

Davit System Delivery

*Add an operator for £480 per day and get the counterweight for £160 per week

Delivery & Collection within a 50 mile radius	£40.00 each way
Delivery & Collection plus erection and dismantling	£100.00 each way

Breathing Apparatus

Scott ELSA

- Unique cuboid hood with elastomeric neck seal for easy donning and excellent visibility
- Automatic activation – a constant flow of air is provided upon opening the ELSA bag
- Hood design enables it to be worn by those with beards or glasses
- 10 and 15 minute versions available

Hire Price: £31.00 Per Week + VAT

Scott ELSA Sprint

- Supplied with a positive pressure face mask
- High visibility or anti-static bag
- Tempest demand valve offers excellent flow performance
- 10 and 15 minute versions of Elsa Sprint are available

Hire Price: £31.00 Per Week + VAT

ACSI Self Contained Breathing Apparatus

- Lighter than any other carrying system and offers the wearer the ultimate in comfort and flexibility
- Class 1, SCBA set for use in industrial environments
- 2.15kg
- Flame retardant webbing and cylinder band
- Conformity: EN 137: 2006 Class I

Hire Price: £65.00 Per Week + VAT

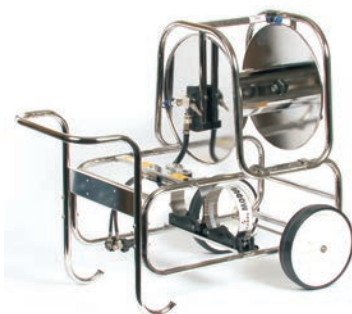

Scott Flite Escape with Cylinder

2103100/21A1000

- Compact automatic positive-pressure demand valve
- Side-mounted
- Adjustable and padded webbing bandolier harness for comfort and safety
- Constant flow by-pass
- Lightweight harness
- Conformity: EN 139 and EN 402

Hire Price: £31.00 Per Week + VAT

Modul-air Cylinder Frame Unit Two Cylinders

21A8800

Modul-air frame unit for 2 cylinders up to 180mm diameter

- Stainless steel tubular frame with adjustable cylinder bands, wheels, handle and moulded hose reel drum (hose separate)
- High pressure pneumatic system with 55bar whistle
- 200/300 bar cylinder connectors and 1 CEN outlet coupling
- Two man use

Hire Price: £195.00 Per Week + VAT

Respirator Fit Testers

Portacount 8040 Respirator Fit Tester

35267

- Quantitative respirator fit testing for half masks, full face masks, disposable filtering facepieces, SCBA, gas mask and PAPR
- Includes carry case
- AC power supply with global plug adapters
- Standard accessory kit (twin tubing, zero filters, spare wicks, alcohol fill capsule and cartridge, USB cable)

Hire Price: £505.00 Per Week + VAT (+£50.00 Per Week for adapters)

Portacount 8048 Respirator Fit Tester

35190

- Quantitative respirator fit testing for half masks, full face masks, disposable filtering facepieces, SCBA, gas mask and PAPR
- N95-Companion™ technology
- Includes carry case
- AC adapter and AC power supply with global plug adapters
- Particle generator
- Standard accessory kit (twin tubing, zero filters, spare wicks, alcohol fill capsule and cartridge, USB cable)
- Filtering facepiece test kit (probe insertion tool, probes, lock nuts, lanyard)

Hire Price: £505.00 Per Week + VAT (+£50.00 Per Week for adapters)

Gas Detection

BW GasAlert MicroClip XL

Detecting for CO/H2S/LEL/O2

- Easy one-button operation
- Extended battery life (especially in cold conditions)
- Dust and waterproof IP68 rating
- ATEX approved

Hire Price: £64.00 Per Week + VAT

Crowcon T4

Detecting for CO/H2S/LEL/O2

- Easy one-button operation
- Up to 18-hour battery life
- Dust and waterproof IP65 and IP67 rating
- TWA Resume Function when monitor is switched off
- ATEX approved

Hire Price: £64.00 Per Week + VAT

MSA Altair 4XR

Detecting for CO/H2S/LEL/O2

- Outfitted with rapid-response MSA XCell® sensors
- The ALTAIR 4XR can also provide real-time incident awareness to team members, supervisors, safety managers and others when paired with the MSA ALTAIR Connect app via a Bluetooth® wireless connection
- Dust and waterproof IP68 rating (2 meters for at least 1 hour)
- ATEX approved

Hire Price: £64.00 Per Week + VAT

Crowcon Tetra 3

- Typically a 3-gas monitor O2, LEL and CO2 or Cl2
- IP rating water and dust resistant 65/67
- Battery life of 14 hours of continuous operation
- ATEX approved

Hire Price: Price on request

Bw GasAlertMicro 5

- Toxic and PID (Photo Ionization Detector) Models
- IP rating dust and water 65/66
- Battery life detecting toxic 20 hours run time
- Battery life detecting PID or Co2 15 hours run time
- ATEX approved

Hire Price: Price on request

Bw GasAlert Extreme

- Various gases including Nh3, So2 and Cl2
- IP rating dust and water 66/67
- 1.5 Year battery life (Typical) With replaceable 3V battery
- ATEX approved

Hire Price: Price on request

Lighting

SA LUMIN LED Rechargeable Floodlight SARF300

100582

- Lightweight and fully portable powerful LED rechargeable floodlight
- Up to 12 hour duration
- Intense light output of up to 2000 lumens
- ATEX and IECEx certified for Zones 1 & 2 (Gas) and Zones 21 & 22 (Dust)
- No trailing cables, vastly reducing trip hazards
- Low battery voltage warning and specialised charging system
- Waterproof and dustproof

Hire Price: £70.00 Per Week + VAT

Wolf ATEX LED Torch TR45

456603

High-power LED, right-angled safety torch

- ATEX-approved for zones 0, 1 and 2 (explosive gas and dust atmospheres), with group 1 (mining) approval
- LED light source is fitted for life with no bulb replacement required
- High-output, focused spot beam with wide angle fringe of light
- Over 7.5 hours of high power output from four AA primary cells
- Compact and lightweight design

Hire Price: £13.00 Per Week + VAT

2765 HeadsUp Lite Zone 0

2765

- Ultra-compact and lightweight
- Equipped with three LEDs and a full-time battery level indicator on the 45° pivoting head
- Four modes: high, low, downcast and flashing

Hire Price: £13.00 Per Week + VAT

Cable Locators

C.Scope CXL4 Cable Avoidance Tool

3178216

- Capable of operating on both 33kHz and 131kHz
- Four different modes
- Built-in alarm for shallow underground services and alerts if there's too much swing that could affect accuracy
- Data recording capability which will be logged away for up to a year and can be uploaded to a PC, a Bluetooth device or to Google services including Earth and Maps

Hire Price: £32.50 Per Week + VAT

C.Scope SGV4 Signal Generator

3178218

- Dual-frequency 33kHz and 131kHz output
- Three ways to apply the signal: direct connection, wraparound and induction
- Four power level adjustments
- Built-in datalogging system can store a year's worth of information, which can also be transferred via USB
- Clear and audible signal output when operating, as well as an audio mute control
- Durable, dust-resistant and waterproof

Hire Price: £32.50 Per Week + VAT

C.Scope Non-Metallic Pipe Sonde

3178210

- Non-metallic pipe sonde crafted from stainless steel, epoxy resin and IP68-rated plastic
- Emits 33kHz signal that can be detected at up to 7m
- Fits into pipes with a diameter up to 50mm
- Suitable for use with C.Scope pipe tracers
- Powered by one AA battery

Hire Price: £19.50 Per Week + VAT

Contract Hire Only
Powered Air

Sundström SR 500 Power Unit

1C9301

- High air flow rates
- Low weight
- Simple management system
- Self calibrating
- Unique alarm system
- EMC approved
- Simple filter programme
- Choose between eight human interfaces

Price on Request

Sundström SR 500 EX Intrinsically Safe Power Unit

1C2200

- Intrinsically safe
- Standard airflow of 175 litres - 240 litres per minute
- Automatic air flow control
- Low airflow warning alarm for added safety
- Fan unit
- Battery
- Battery charger
- Charging time - two hours

Price on Request

Sundström SR 570 Face Shield

160901

- Vent which adjusts direction of the air flow for maximum comfort
- Optional bump cap protection to EN812 included
- Features a 30mm Euro slot to be combined with ear defenders
- Approved to TH3 when combined with a powered fan unit
- Durable, scratch-resistant, flip-up polycarbonate visor
- Wide field of vision
- Adjustable for height, width and angle
- Conformity: EN 12491:1998+A2:2008, EN 166 1B, Assigned protection factor (APF): 40

Price on Request

Sundström SR 700 Powered Respirator Starter Kit

160100

- High airflow rates of 175 with boost option to 225 L/min
- Automatic flow control, ensuring accurate airflow
- Alarm system to alert the user to change filters or charge the battery
- Conformity: EN 12941/12942:1998.

Price on Request

Sundström SR 580 Headtop and Hose

1C8200

- Combined respiratory and head protection
- Hinged visor protects against impact, liquid splashes and molten metal
- Airflow keeps visor de-misted
- Universal attachment for hearing protectors
- Large field of view
- Simple to change visor
- Assigned Protection Factor 40
- Classification TH3
- Conformity: Complete system approved to EN 12941:1998. Headtop approved to EN 397:1995

Price on Request

Sundström SR 592 Powered Welding Shield

1C3800

- Designed for easy use and operation
- Easy and adjustable head harness for best comfort
- Can be equipped with different types of welding filters
- Choose to use it with our powered fan unit SR 500 or SR 700 in the highest protection level (TH3)
